COMPANY OVERVIEW

Trokon Smith Consulting LLC (TSC) is a Service-Disabled Veteran-Owned Small Business delivering SAP ERP, enterprise systems, financial management, analytics, and mission-support services across federal defense, aerospace, manufacturing, and financial environments. With more than 15 years of enterprise experience, TSC provides senior-level, founder-led execution focused on process optimization, financial accuracy, audit readiness, and mission-critical sustainment.

CORE CAPABILITIES

Enterprise ERP (SAP ECC / HANA) — FI/CO/FM/PS/MM/SCM configuration, integration, enhancements, testing, deployment, sustainment, and production support; FMBB, FMAVCR, FMEDDW, cost-object settlement, and PR/PO lifecycle support.

Financial & Funds Management — Funds control, budget execution, commitment and obligation management, period/year-end close, trial balance and SBR support, USSGL compliance, audit readiness, cost management, and reporting.

Business Process & Data Analytics — Requirements and gap analysis, functional specifications, process optimization, multi-source data integration, reporting, and actionable decision support.

Program & Mission Support — Project execution, stakeholder coordination, interface and defect troubleshooting, documentation, training, knowledge transfer, sustainment, and regulated-environment support.

RELEVANT CORPORATE EXPERIENCE

NAVSEA ERP Business Office Support

PSI Pax Team • SeaPort-NxG Task Order N00174-22-F-3005

Senior SAP FM support including FMBB, FMAVCR, FMEDDW, configuration, incident and defect analysis, functional testing, audit support, and period/year-end close.

Navy ERP Technical Support Services

IBM Team via Comtech • SeaPort-NxG Task Order N00039-21-F-3007

SAP FI/CO requirements, design, configuration, enhancements, integration, PR/PO lifecycle support, testing, sustainment, and production support.

Experience shown reflects TSC performance as a subcontractor/team member and does not imply prime-contract or contract-vehicle ownership.

TECHNICAL ENVIRONMENT

SAP ECC 6.0 • SAP HANA • Oracle • SQL Server • AWS • ABAP • Python • SQL • JIRA • Hyperion • Deltek • Solution Manager • HPQC/ALM • Linux • UNIX • Windows
